

DR CLAUDELLE VON ECK

Keynote Speaker

Brave Inflexions

Dr Claudelle von Eck
Ethical Leadership Strategist | Executive Transition Coach | Keynote Speaker
Bridging power and humanity in complex systems

Dr Claudelle von Eck works at the intersection of governance, ethics and leadership responsibility. She is known for being a conscience that challenges — inviting leaders to examine how they exercise power, how they shape culture, and how their decisions ripple beyond the boardroom.

With experience as a CEO, Non-Executive Director and Executive Coach, she brings governance depth, psychological insight and systems thinking to leaders navigating complexity, crisis and transition. Her work does not offer simplistic solutions. It invites deeper clarity — especially when the answers are not obvious.

At one level, the work focuses on leadership behaviours, strategy and stakeholder engagement.

At a deeper level, it explores the beliefs, internal narratives, resilience patterns and personal wellbeing factors that shape how power is exercised.

The depth of the engagement depends on trust.

Her work is best suited to leaders willing to examine themselves honestly. Meaningful leadership growth requires openness — not only about professional challenges, but about the internal dynamics that influence them.

When that level of engagement is present, the work becomes transformative.

Keynote Speaking

Leadership at Responsibility Thresholds

Claudelle speaks to boards, executive teams, senior leaders and governance communities who are grappling with ethical complexity, cultural strain and heightened scrutiny.

Her keynotes are reflective and thought-provoking, combining governance insight with psychological depth and practical relevance.

Signature Keynotes

Bridging Power and Humanity

Ethical Leadership in an Age of Complexity. How leaders exercise authority responsibly when decisions are morally ambiguous and publicly scrutinised.

Leading at the Inflection Point

Why defining leadership moments require courage, clarity and self-leadership.

The Board's Ethical Compass

Strengthening governance oversight in turbulent environments.

Culture Under Pressure

How leadership behaviour during crises permanently shapes organisational culture.

Navigating in a Complex World

Claudelle also speaks at conferences with diverse audiences ranging from leaders, internal auditors, fraud examiners, female specific, etc.

She does not take a one-size-fits-all approach; her engaging keynotes are tailored to the audience to ensure maximum value.

Signature Keynotes

Leadership has a shadow

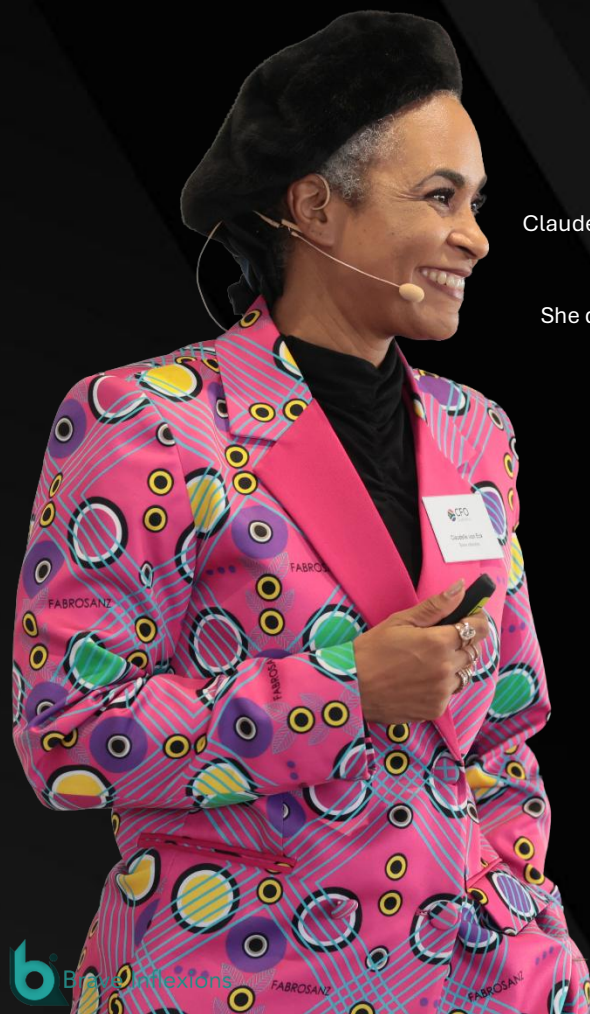

Recognising the blind spots of the individual leader and the leadership team as a collective, while illuminating and overcoming the leadership shadow.

Managing your lens

Understanding that none of us sees the full reality is key to making decisions in the best interest of all. Expanding sight and the ability to recognise and see through different lenses are vital leadership skills.

Navigating through the grey

Recognising ethical implications and dilemmas and navigating to minimise negative impact.

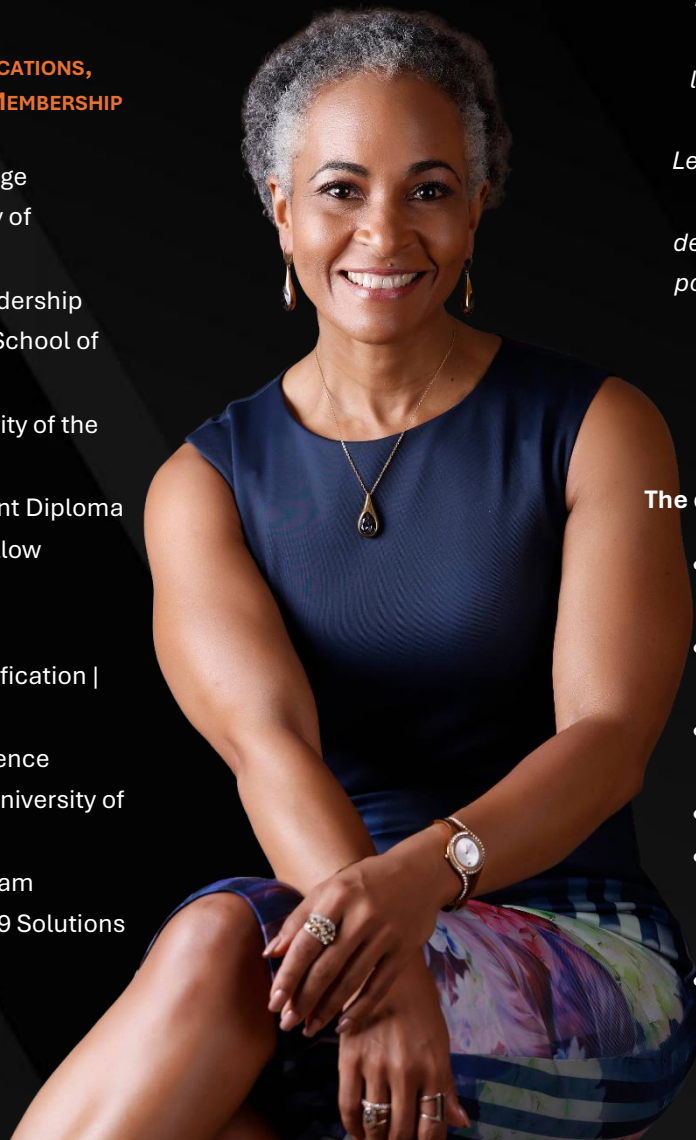

About Dr Claudelle von Eck

Dr Claudelle von Eck is a governance and leadership strategist whose career spans corporate, public, academic, professional associations, and non-profit arenas. With her ability to rebuild trust, shape ethical cultures, and integrate strategy with humanity, she has guided complex organisations through transformation and renewal. As a former CEO, a Non-Executive Director and Executive Coach, she brings a rare combination of leadership and psychological insight, governance depth, analytical rigour, and deep systems thinking to every stage.

MTS South Africa

"As a dancer, I've learned that nimble feet are required to navigate through complexities. This has helped me to lead others through constant change and uncertainty.

Leadership, governance, culture, ethics, and courage are topics that are very dear to my heart. My dream is to make a positive contribution in shaping a better world for all who live in it"

The differentiators in my approach

- Governance depth as a former CEO and Non-Executive Director
- Board and committee experience across complex organisations
- Formal grounding in psychology and executive coaching
- Level 2 Enneagram practitioner
- A systems lens that recognises the ripple effects of leadership decisions
- A capacity to hold difficult conversations with steadiness and discretion

**INTEGRATIVE ENNEAGRAM
ACCREDITED PRACTITIONER**
